

Photography & Videography Policy

Offaly Sports Partnership has a photography and videography policy in situ, which is in accordance with data protection legislation

Photographs and Videos may be taken during events by staff and professional photographers / videographers. These images and videos may be used by Offaly Sports Partnership for the positive promotion of its work in the media, on its website and social media channels, and in its publications. Offaly Sports Partnership may also use these images and videos in reports to funding partners.

Videos may be taken during training sessions to assist in video analysis of technique, etc; and will not be used for any other purpose.

Parents, schools, clubs and organisations are notified of the Photography and Videography Policy of Offaly Sports Partnership; and are invited to confirm whether permission has been given for third parties such as Offaly Sports Partnership and professional photographers and videographers to take photographs of participants during events and training sessions as per the following: -

I understand that photographs and / or videography may be taken during the event and / or training session; and that these images / videos may be used by Offaly Sports Partnership for the positive promotion of its work in the media, on its website and social media channels, and in its publications.

I also understand that these images / videos may be used by Offaly Sports Partnership when submitting reports to funding partners.

I have been notified of the photography policy of Offaly Sports Partnership; and consent for any images of me / my family / our pupils / our students at this event / training session to be utilised as above
